

Appl. No. 10/717,314

Prel. Adt. dated 4/19/04

Reply to Notice of Missing Parts dated 2/20/04

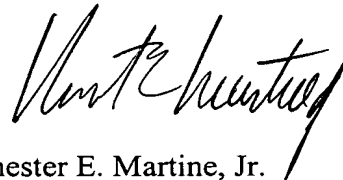

Remarks

This is in response to the Notice of Missing Parts of Nonprovisional Application. dated 2/20/04, in which, on page 1, the application was held informal and replacement drawings were required. In lieu of such replacement drawings, Applicants hereby request that the specification be amended as set forth above to correct a clear typographical error at page 11, paragraph starting at line 17. This amendment obviates the requirement for a replacement drawing as stated in the Notice To File Missing Parts of Nonprovisional Application.

In detail, Fig. 7B was included the drawings filed with the application on 11/18/03, and was identified as "Fig. 7B". As filed, and consistent with the as-filed Figure 7B of the drawings, page 17, line 24 referenced "FIGS. 7A and 7B". The typographical error appeared at line 17, at page 11, in the paragraph starting at line 17. It is respectfully submitted that those two uses of Figure "7B", both in the as-filed drawings and in the as-filed page 17, line 24, indicate that the page 11 reference to "Figure 78" was a typographical error, which should have referenced "Figure 7B".

It is respectfully submitted that this typographical error is properly correctable by the requested amendment to the specification. Entry of this amendment, and withdrawal of the holding of informality of the application, and withdrawal of the requirement to submit a replacement drawings, are respectfully requested.

Respectfully submitted,  
MARTINE & PENILLA, LLP
